Through the instrumentality of Operator Sauborn, the people of Brownsville have been able to have messages transmitted during the interrupted telegraphic conditions. He has visited Matamoros twice daily sending any telegrams that have been filed, and receiving all that have come in. On the 19th he received 111 messages at one sitting and today he sent 41, and received 39.

R. B. Craeger shipped a car load of brick recently, to E. D. Sidbury, lumber dealer at Corpus Christi. Brownsville is not confined to one or two avenues of trade, but has a multitude of resources to draw from to supply less favored sections. As the preparations and enterprises now being engaged in develop our resources will multiply, and ability to furnish any commodity will correspondingly increase.

INCENTIVE TO
ONION GROWING.

What One Man Did 45 Miles From
Shipping Point.

In conversation yesterday with W. E. McDavitt a HERALD representative was shown a statement of results in onion growing last year near Carrizo Springs, that is calculated to make a man desire to enter this branch of truck growing at once. The gentleman, a Mr. Little, had ten acres in onions and from this acreage he realized gross receipts to the amount of \$6010.69, or about \$610 per acre. The first shipment was made on the 20th of April, and the last on June 5th, a period of about 45 days elapsing between the first and last shipment. Of course, this was not all profit, as the cultivation, gathering and marketing the onions had to come out of this amount. The onions were 45 miles from railroad and the freight paid for hauling to shipping point was 50 cents per 100 pounds. Eliminate the actual cost of putting the onions in the market and you have a very neat sum per acre, and in this section where transportation facilities are good the increased profits would be quite an item. Past experiments in the Brownsville country in onion growing have been eminently successful, and with the advent of a quick means of transportation, great returns may be reasonably expected from this crop. Owing to the fact that in this country the onion crop will be out of the way by the middle of May, and as there are twelve months in the year when something can be grown here, one acre of ground can be made to produce as much as three acres elsewhere not so fortunately situated climatically. THE HERALD is a staunch believer in the future of this section, and proposes in all possible ways to further the good work.

District Court.

In the district court Fermina de la Torre, on writ of habeas corpus, was allowed bond in the sum of \$1000. This is in the case of Blas de la Torre, who was murdered here about two months ago.

Jose B. Torres, convicted of horse theft and given two years in the pen., motion for new trial overruled.

Judge Welch pronounced sentence yesterday afternoon on the following parties, convicted at this term of court: Julian Salazar, 10 years; Jose B. Torres, 2 years; Joaquin Garcia, 5 years; Antonio Salazar, 2 years; Eusebio Gomez, 2 years.

Court adjourned this forenoon until tomorrow morning, when the civil docket will be taken up. The grand jury adjourned Tuesday afternoon.

RIO GRANDE FIFTEEN
MILES WIDE.

Camargo, Mex., Flooded, People Driven Out of Garcias—Havana and Fordyce Under Water.

Rio Grande City, Tex., Sept. 19.—The river rose about thirty-five feet here Saturday. It is reported that the San Juan river rose about seventy feet, meeting the Rio Grande and flooding Camargo, Mex.

Many families were compelled to leave their homes for high ground. Many buildings have fallen and great loss is incurred also on cotton, corn and live stock on both sides of the river below.

The situation in Garcias, nine miles below here, is distressing. The whole place was flooded and all the inhabitants are camped on the foothills. The river carried away all the corn stacked in yards and many houses.

Reports from Havana, Hidalgo county, state that all persons living along the river have sought high ground. Fordyce, the new town-site on the Hidalgo branch of the Lott road, is reported to be six feet under water. There has been much damage to the newly constructed roadbed.

The river here has fallen about eight feet, but is about fifteen miles wide. The telegraph line from here to Brownsville is under water in many places. There is no chance for telegraph or mail communication between here, Hidalgo and Brownsville for several days. No loss of life reported as yet.

Was "Too Late to Mend." Two days after the death of Stephen W. Fitts, of Allerton, Mass., his executor received a check for \$3.03 from the United States treasury in payment of a claim against the government that had been filed 42 years ago. The claim was for unpaid services in the army.
